100%
Vegan

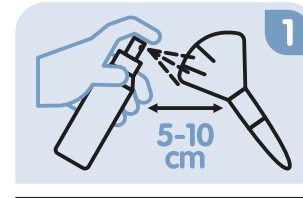

Kills 99.9%
of bacteria,
fungi and viruses

The product has a
UN 1170 hazard class 3
for transportation,
flammable

Makeup Brush Cleaner is an antibacterial spray that simultaneously cleans and conditions your brushes, which increases their lifespan while ensuring flawless makeup application.

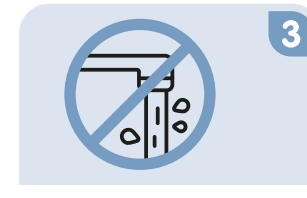

Spray a small amount on the brush at a 5-10 cm distance and ensure that the entire brush is properly damped.

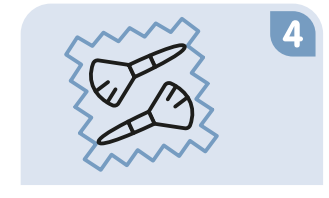

Gently **run brush head over the cloth** until surface oil and dirt are removed.

For synthetic fiber brushes use a circular motion. For natural-hair brushes, sweep brush head in a back and forth motion.

Rinse-free formula.

Allow brushes to **dry completely** before use.
