Disicide®+ Universal Spray offers an alcohol-free, water-based disinfection alternative that is gentle on surfaces but tough on bacteria. It has been approved for use on all waterproof and porous surfaces such as stainless steel, plastic, acrylic, glass, textile, leather, marble, etc. It is ideal for quick and easy cleaning, making it a must-have in any professional environment.

Spray abundantly on the surface.

Or, as an alternative, **soak a cloth** with product and wipe with it.

Apply product to surface for at least **30 seconds**.

Allow the surface to **air dry**.
