

## 2-in-1 PRO TURBO AIR DUSTER

The Barber Hair Duster blower is a compact, powerful tool designed for the professional barber. It combines power and convenience with its ergonomic design, removing hair and debris in seconds, and offering variable speeds up to 85,000 rpm. Its compact design fits perfectly in any work space. An essential tool for maintaining hygiene and customer satisfaction, and perfect for the modern professional.

### INTRODUCTION

For correct, safe use follow the instructions below. Please keep these instructions for future reference.

**PLEASE NOTE:** If some parts of this handbook are difficult to understand or in the event of any doubt, please contact the company at the address provided on the final page of this manual before using the product.

The manufacturer cannot be considered responsible for any damage to people or property caused by any use other than that described in this instruction handbook. The instructions in this handbook provide explanations for the set-up, use, and correct maintenance of the product. Carefully follow the instructions to ensure safe use and a long-lasting product.

This instruction handbook is an integral and essential part of the product and should not be separated from it.

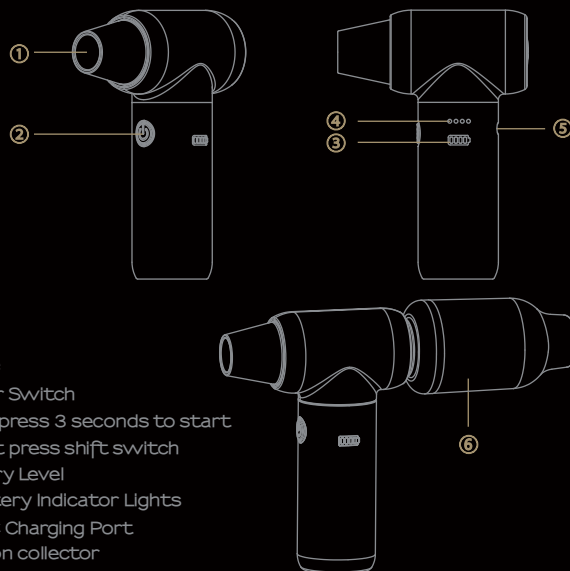

### IMPORTANT SAFETY INSTRUCTIONS

- KEEP THE PRODUCT OUT OF REACH OF CHILDREN.**
- WARNING: RISK OF SUFFOCATION DO NOT LEAVE ANY PARTS OF THE PACKAGING IN REACH OF CHILDREN OR DISABLED PERSONS.**
- WARNING: RISK OF ELECTRIC SHOCK. IF THE PRODUCT SHOULD FALL OR RECEIVE ANY STRONG BLOWS, HAVE IT CHECKED IMMEDIATELY BY THE MANUFACTURER OR AN AUTHORISED TECHNICAL ASSISTANCE SERVICE.**
- WARNING: RISK OF ELECTRIC SHOCK. NEVER PLACE THE APPLIANCE IN WATER OR OTHER LIQUIDS!**

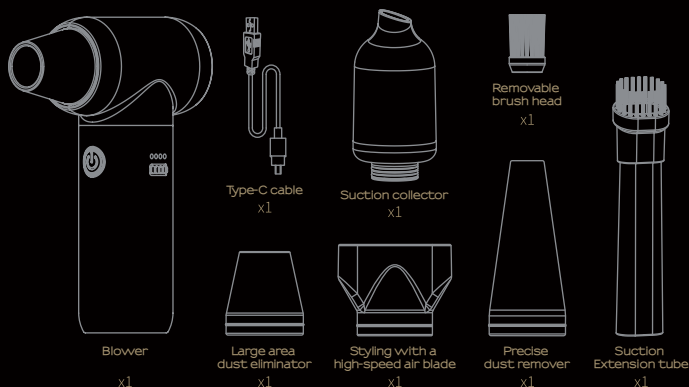

### Follow these basic rules when using any electric device, namely:

- Do not touch the device with wet or damp hands.
- Do not touch it with bare feet.
- Not to be used by infants or the incapacitated.
- Do not allow children to play with the appliance.
- Do not pull the electric cable or the appliance itself to remove the plug from the electric socket.
- **Only connect the product to the power supply/electric socket if:**
  - The electrical system used to power the product is compliant with the current standards in force for domestic buildings.
  - The power socket is earthed.
  - The mains electricity supply information is the same as that stated on the product's rating plate.
  - The plug capacity is adapted to the maximum power. Where the socket and plug are not compatible, the plug should be replaced by a qualified professional.
- It is not generally advisable to use plug adapters, multiple sockets or extension leads. However, if they are absolutely necessary, only use adapters that comply with safety standards and be sure to stay within the power limits for the adapter, multiple socket or extension cable.
- Switch off the product and disconnect it from the power supply before carrying out any cleaning or maintenance.
- This appliance can be used by children aged 8 and above and by persons with reduced physical, sensory or mental capabilities, or lack of experience and/or knowledge provided they are under supervision or have been instructed as to the safe use of the appliance and understand the hazards involved. Children must not play with the appliance. Cleaning and user maintenance should not be undertaken by children without supervision.
- Never leave the product exposed to the elements.

Never replace the battery without professional assistance. The battery must be removed and disposed of by a qualified technician or by the manufacturer in compliance with local environmental by-laws.
